INTRODUCTION

Background

Contract Name: Preferred Family Healthcare, Inc.

Contract Number: 214-09

CFDA Number: 17.259

Contract Period: July 1, 2008 through June 30, 2009

Contract Amount: \$97,165.00

Contract #214-09 provides Workforce Investment Act (WIA) funds to Preferred Family Healthcare, Inc. (Agency) to operate their youth substance abuse prevention program. The purpose of this program is to identify youth (ages 16-21) with substance abuse barriers, and to provide comprehensive substance abuse education, counseling, and/or treatment.

Purpose

The purpose of the review was to determine the Agency's compliance with federal, state and local SLATE requirements for the period July 1, 2008 through March 31, 2009, and make recommendations for improvements, as considered necessary.

Scope and Methodology

Inquiries was made regarding the Agency's internal controls relating to the grant administered by SLATE. Evidence was tested supporting the reports the Agency submitted to SLATE and other procedures were performed, as considered necessary. Fieldwork was completed on August 25, 2009.

SUMMARY OF OBSERVATIONS

Conclusion

The Agency fully complied with federal, state and local SLATE requirements.

Status of Prior Observations

The Agency's previous fiscal monitoring report, Project #2008-SLATE10, issued September 25, 2008, contained two observations:

- 1. Agency billed salaries and fringe benefits in excess of contract amount (Resolved)
- 2. Agency did not have a cost allocation plan (Resolved)

A-133 Status

The Agency expended \$500,000 or more in federal funds for the years ended June 30, 2008 and 2007; therefore, it was required to have a single audit in accordance with OMB Circular A-133.

The Agency's A-133 report, dated October 21, 2008, rendered unqualified opinions on the general purpose financial statements and regarding compliance with requirements applicable to major federal awards. No material weaknesses were disclosed. There were no reportable conditions and the Agency qualified as a low-risk auditee.

Summary of Current Observations

There were no current observations.
